

Superior Design & Craftsmanship

Vigilant Wine Cabinet and Door Finish Waiver

Vigilant, Inc. sells, produces, and ships its wood wine cabinets and doors with a factory-applied finish. This finish is an important element in ensuring the quality and integrity of the finished product. Should the client require Vigilant to ship them wooden wine cabinet(s) or doors in an unfinished state and without the Vigilant standard factory finish, Vigilant cannot guarantee the integrity and quality of the final installed product.

Clients requesting, ordering and receiving a Vigilant Cabinet or door without the applied factory finish, have 48 hours from the time of delivery to inspect the delivered cabinet and alert Vigilant in writing of any quality issues relating to fabrication or delivery of the cabinet or related components.

Any issues brought to Vigilant's attention during this 48 hour period will be addressed under the published Vigilant Warranty. After the 48 hour inspection period ends, the client assumes responsibility for the product and waives the right to make quality claims relating to fabrication, delivery, and cabinet performance of the finished product.
